

AUTOMOTIVE SERVICE ASSOCIATION®

Official Associate Membership Application

The Automotive Service Association (ASA) is the largest not-for-profit trade association of its kind serving independent automotive service professionals. ASA's international membership base includes numerous affiliate, state and chapter groups from all segments of the automotive service industry. ASA's headquarters is in Bedford, Texas.

The Automotive Service Association advances professionalism and excellence in the automotive service and repair industry through education, representation and member services.

Associate members of ASA are suppliers of goods, services or equipment to the automotive industry. Associate membership with ASA gives you opportunities to access the membership database, advertise in *AUTOINC.* magazine and the ASA Web site at a reduced rate, get a free listing in the annual membership directory, participate in ASA member benefits and get advanced notice of trade show dates and exhibit space at ASA-sponsored events. Read below for more details.

Associate Membership Opportunities

- The national member database is available to Associate members for a nominal fee. Call (800) 272-7467, ext. 247, for current pricing and security guidelines.
- Your company name and brief description of your services are published in the ASA online membership directory. ASA members use the directory as a source of goods and services, placing many orders with ASA Associate members each year.
- Your company can participate in ASA national benefit programs such as the ASA Federal Credit Union and APPI, a source for lower utility rates in deregulated states. For information on these programs and other benefits, call (800) 272-7467, ext. 295.
- You receive a subscription to *AUTOINC.* magazine, the official publication of the Automotive Service Association.
- ASA sponsors two trade shows a year, CARS and NACE. Associate members will receive advanced notice of event dates and space availability.
- Training is one of the industry's biggest challenges. As an Associate member, you can help by contributing training information as well as receiving it. As a member, you are always considered for participation in association-sponsored seminars and training programs, which may be highlighted in *AUTOINC.*
